Dear Pat:

I can't thank you enough for the past three weeks of *The Wonderbread Years*. Not only did the audience love the show but our entire company loved working with both you and your incredible Sweetwood staff. Your tireless efforts promoting the show went above and beyond. The fact that you could arrive in Austin a relative unknown and leave with every patron, DJ and journalist in your back pocket is a thing of wonder.

When anyone asks me about this show I tell them that *The Wonderbread Years* is for everyone who remembers a time when Spam was considered actual food. Fortunately it's also for everyone who can't remember Spam as edible but who appreciates it in a punch line. A one-man show about American Pop culture doesn't get any funnier than this.

Call me as soon as you can about your show *Bunk Bed Brothers*. I want it on our season for 05-06
